ABOUT ME

I'm a self-driven mobile app and web developer. I build cross-platform Flutter applications with Firebase backends and love bringing beautiful UI/UX ideas from Figma to life in code. I care deeply about accessibility, clean architecture, and creating experiences that truly connect with users.

EDUCATION

Higher Secondary Certificate (HSC)	2026 – 2027
<i>Viqarunnisa Noon College (VNC)</i>	
Secondary School Certificate (SSC)	2024 – 2025
<i>Viqarunnisa Noon School (VNS)</i>	

CERTIFICATIONS

App Development with Flutter	Oct – Dec 2025
<i>Link-Up Technology Ltd. (BASIS Accredited) · 64 Hours · Batch 205</i>	

TECHNICAL SKILLS

Mobile Dev	Flutter · Dart
Backend	Firebase (Auth · Firestore · FCM) · REST APIs
Version Control	Git · GitHub
Design Tools	Figma · Adobe Photoshop · Adobe Illustrator
Productivity	Notion

SOFT SKILLS

- Communication
- Teamwork
- Leadership
- Adaptability
- Problem-Solving

LANGUAGES

- Bengali (Native)
- English (Proficient)

PROJECTS

Ishihara Color Blindness Test App

Flutter · Firebase · Cross-Platform

- Built a comprehensive cross-platform app (iOS, Android, Web, Desktop) for conducting and tracking Ishihara color blindness tests.
- Integrated Firebase Auth, Cloud Firestore, and Firebase Cloud Messaging for secure authentication, real-time data, and push notifications.
- Implemented real-time camera-based color detection, text-to-speech guidance (`flutter_tts`), and in-app notifications for accessibility.
- Managed app state with a clean feature-first architecture.
- Wrote unit and widget tests covering controller logic, color processing, and UI components.

[Flutter] [Dart] [Firebase] [Camera] [TTS] [REST APIs] [Git]
